

I, \_\_\_\_\_, am a practicing Evangelical, and my beliefs, represented below, are both sincere, meaningful, and qualifying.

COVID-19 vaccines use fetal cell lines in development, confirmation, and production.<sup>1</sup>

The presence of and use of immortalized human cell lines taken against the will of the person(s) aborted having been used in the development of vaccinations, cause my firm belief that participation in the vaccination programs is an indirect engagement and participation in abortion. According to Scripture, this is morally compromising.<sup>2</sup> This belief is concretely held and poses a direct threat to my religious and moral obligations and adherence as an Evangelical Christian.<sup>3</sup>

I verify that this information and any other information I am submitting in support of my request for an accommodation is complete and accurate to the best of my knowledge.
